

Certificate IV in Adult Tertiary Preparation

(Online) 10765NAT

THE UNIVERSITY
OF QUEENSLAND
AUSTRALIA

UQ College's online Certificate IV in Adult Tertiary Preparation (10765NAT) is for anyone who wants to gain or improve their tertiary entrance ranking so they can study at university. This program is recognised as a Year 12 alternative and is ideal for adults who have not participated in formal study for some time. You can complete the full Certificate IV qualification and proceed to undergraduate study via a QTAC application, or simply fulfil the requirements of a university prerequisite through completion of specialisation units.

Enrolment online through uqcollege.uq.edu.au

Intakes

We offer two intakes per year. Students can commence their program in either January or June. (UQ College reserves the right to cancel an intake if enrolments are insufficient.)

Fees

\$4950 for full qualification
\$550 per unit
Subsidised training is available for eligible students.

uqcollege.uq.edu.au/study-options/vet-programs/10765nat/subsidy

Duration

4 terms (10 weeks per term)
5 hours per unit, each week
A typical 2-unit term would consist of 10 study hours per week.

Laboratory sessions

Students enrolled in the Biology or Chemistry units will be required to attend face-to-face laboratory sessions at our St Lucia campus and one field trip to Nudgee Beach in Brisbane (for Biology only).

Pathway to university

To attain the full qualification for the purpose of seeking entry to university undergraduate programs, you will need to meet the training and assessment requirements for the three Core and six Elective units of your choosing.

Specialisation Units:

Complete a specialisation in Biology, Chemistry or Pure Mathematics to satisfy prerequisite requirements for admission to selected universities.

Program aims

The Certificate IV in Adult Tertiary Preparation (10765NAT) provides a pathway to university undergraduate programs. It is specifically designed to develop the skills, knowledge and habits you need to succeed in higher education and to prepare you for the rigours of tertiary study.

Program objectives

At the successful completion of the qualification, you will be able to:

- Enter into academic environments in higher education undergraduate degree programs in selected discipline areas such as: science, business/commerce, information technology, education, arts, health and many more.
- Demonstrate the relevant prerequisite for entry to a degree program at The University of Queensland or other selected universities.
- Demonstrate depth and breadth of specialised knowledge and skills required for tertiary study in a variety of contexts.

Admission requirements

To be eligible for admission, you must satisfy the following requirements:

- Satisfactory completion of a Language, Literacy and Numeracy Test (LLN) prior to enrolment. LLN materials will be provided by UQ College.
- Apply for a Unique Student Identifier Number (USI).
- Be an Australian or New Zealand citizen, or be a holder of a Permanent Visa including a Permanent Humanitarian Visa.
- Be at least 18 years of age, or must be turning 18 within the enrolment period.

Photo identification

Australian and New Zealand citizens

- Copy of your passport or driver's licence or proof of age card.

Holder of a permanent visa including a Permanent Humanitarian Visa

- Copy of your Passport or Immigration Card; AND
- Copy of your Visa or letter from the Department of Home Affairs.

IT requirements

You must have access to:

- Internet
- Computer with webcam and microphone

Program structure

English	Core Units <i>NB: Meets English prerequisite requirement for UQ</i>
ATPPRE001	Plan and prepare for study
ATPALS001	Apply academic learning skills
ATPALS002	Apply advanced academic learning skills to develop an academic argument (Prerequisite: ATPALS001)
General Mathematics (2 Units)	
ATPGMA001	Apply general mathematics in real world contexts
ATPGMA002	Apply statistical and algebraic theory in real world contexts: (Prerequisite: ATPGMA001)
Pure Mathematics	Specialisation (3 Units) <i>NB: Mathematical Methods equivalent</i>
ATPPMA001	Solve pure mathematics problems involving trigonometry and algebra
ATPPMA002	Solve pure mathematic problems involving statistics and functions (Prerequisite: ATPPMA001)
ATPPMA003	Solve pure mathematics problems involving calculus (Prerequisite: ATPPMA001)
Chemistry	Specialisation (3 Units)
ATPCHE001	Demonstrate the practical and theoretical application of introductory chemistry
ATPCHE002	Apply principles of chemical reactions and systems in theory and practice (Prerequisite: ATPCHE001)
ATPCHE003	Demonstrate the application of theory relating to electrochemistry and organic chemistry (Prerequisite: ATPCHE001)
Biology	Specialisation (2 Units)
ATPBIO001	Apply science inquiry to solve biology problems relating to cells and multicellular organisms
ATPBIO002	Apply theory of ecosystems and genetics in biology
Psychology	(2 Units)
ATPPSY001	Investigate psychology using science inquiry methodology
ATPPSY002	Investigate individual thinking and social psychology
